## PUBLIC AWARENESS ON THE DANGER OF SELF-MEDICATION

Date : 06.12.2021

**From:**

Program Coordinator,  
SS institute of pharmacy,  
Sankari- 637301.

**To:**

The Principal,  
SS institute of pharmacy,  
Sankari- 637301.

**Respected sir,**

**Subject:** Request for Approval to Conduct an Awareness Program on "**Public Awareness on the Danger of Self-Medication**".

We hope this letter finds you in good health. We are writing to seek your approval to conduct an awareness program titled "**Public Awareness on the Danger of Self-Medication**" for the college students and the residents of nearby villages. The program aims to educate participants about the risks associated with self-medication, including the potential for drug interactions, incorrect dosages, and the development of antibiotic resistance. The program is scheduled to take place on 18.12.2021 at 2.00PM – 4.00PM in the college auditorium. We plan to invite healthcare professionals to deliver informative sessions and provide guidance on safe medication practices. The initiative aligns with our commitment to promoting public health and safety within our community. We kindly request your approval to proceed with organizing this event. We are confident that this program will greatly benefit both the students and the local community.

Thanking you,

**Yours sincerely,**  
Program Coordinator,  
SS institute of pharmacy.

**PRINCIPAL,**  
SS INSTITUTE OF PHARMACY,

## CIRCULAR

Date: 13.12.2021

Dear All,

**Subject:** Awareness Program on “Public Awareness on the Danger of Self-Medication”.

This is to inform all students, faculty, and staff that an awareness program on "**Public Awareness on the Danger of Self-Medication**" will be conducted on 18.12.2021 at 2.00PM-4.00PM in the college auditorium. The program aims to educate the college community and residents of nearby villages on the potential risks and dangers associated with self-medication. The session will include talks by healthcare professionals who will provide valuable insights into the safe use of medications and the importance of consulting healthcare providers before taking any medication. All students are encouraged to attend this important session. Your participation will contribute to enhancing your understanding of safe medication practices and help prevent the adverse effects of self-medication. We look forward to your active participation in making this program a success.

## EVENT REPORT

**Date: 21.12.2021**

**Respected sir,**

**Subject:** Report on the Awareness Program "**Public Awareness on the Danger of Self-Medication**".

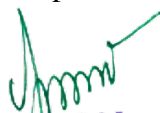

We are pleased to submit the post-event report on the awareness program "**Public Awareness on the Danger of Self-Medication**," which was successfully conducted on 18.12.2021. The program was attended by approximately 25 students from our college and 30 residents from the nearby villages. The event featured insightful presentations by healthcare professionals who highlighted the various risks associated with self-medication, including potential drug interactions, the danger of incorrect dosages, and the growing concern of antibiotic resistance. The session was interactive, with participants actively engaging in the discussion and raising pertinent questions.

### **Beneficiaries of this program included:**

- **College Students:** The students gained a deeper understanding of the importance of consulting healthcare providers before taking any medication. They were also made aware of the potential dangers of self-medication.
- **Residents of Nearby Villages:** The residents benefited from the program by learning about safe medication practices and the risks of self-medication, which is particularly prevalent in rural areas.

The program received positive feedback from the participants, and we believe it has made a significant impact on their awareness of this critical public health issue. We recommend conducting follow-up sessions to reinforce the knowledge gained and to continue promoting safe medication practices within our community.
