

SS INSTITUTE OF PHARMACY

(A unit of VS Educational & Charitable Trust)

Approved by Tamilnadu Government & Pharmacy Council of India, New Delhi.
Affiliated to the Tamilnadu Dr. M.G.R. Medical University,
and The Directorate of Medical Education, Chennai.

LAB COURSE WITH OUTCOME FOR SEMESTER-I

S.NO	SUBJECT
1	HUMAN ANATOMY AND PHYSIOLOGY – I
2	PHARMACUITICAL ANALYSIS - I
3	PHARMACUITICS
4	PHARMACEUTICAL INORGANIC CHEMISTRY

PRINCIPAL,
SS INSTITUTE OF PHARMACY
KUPPANUR (PO), SANKARI (TK),
SALEM - 637301

SS INSTITUTE OF PHARMACY

(A unit of VS Educational & Charitable Trust)

Approved by Tamilnadu Government & Pharmacy Council of India, New Delhi.

Affiliated to the Tamilnadu Dr. M.G.R. Medical University,
and The Directorate of Medical Education, Chennai.

LAB COURSE WITH OUTCOME

HUMAN ANATOMY AND PHYSIOLOGY -I

1. This course equips students with an understanding of the functions of the human body's sensory organs.
2. The course provides specimens that aid in the comprehension of various parts of the human body.
3. Students are encouraged to create chart models, which help enhance their organizational and time management skills.
4. The course allows students to study the structure and functions of body organs in depth.

(A unit of VS Educational & Charitable Trust)

Approved by Tamilnadu Government & Pharmacy Council of India, New Delhi.
Affiliated to the Tamilnadu Dr. M.G.R. Medical University,
and The Directorate of Medical Education, Chennai.

LAB COURSE WITH OUTCOME

PHARMACEUTICAL ANALYSIS I

1. This subject imparts knowledge about limit tests.
2. It offers comprehensive information on the preparation and standardization of various compounds.
3. It deepens understanding of compound assays.
4. It provides detailed insights into the preparation and normality of solutions.
5. It briefly explains the determination of normality through electrochemical methods.

Approved by Tamilnadu Government & Pharmacy Council of India, New Delhi.
Affiliated to the Tamilnadu Dr. M.G.R. Medical University,
and The Directorate of Medical Education, Chennai.

LAB COURSE WITH OUTCOME

PHARMACEUTICS I

1. To understand the concepts related to dosage forms, such as monophasic and biphasic liquid dosage forms.
2. To apply principles and procedures for preparing emulsions and suspensions.
3. To prepare and dispense liquid dosage forms for external use.
4. To explain the process of compounding suppositories.
5. To discuss the concepts and principles involved in the compounding and dispensing of liquid dosage forms for instillation.

LAB COURSE WITH OUTCOME

PHARMACEUTICAL INORGANIC CHEMISTRY

1. To perform limit tests that help identify impurities, ensuring the quality of compounds is maintained.
2. To carry out purity tests to assess the quality of compounds.
3. To prepare inorganic compounds, understanding the procedures and purification techniques, including recrystallization.
4. To conduct identification tests for inorganic compounds.

LAB COURSE WITH OUTCOME

PHARMACEUTICAL MICROBIOLOGY

1. Learn about equipment, aseptic culture transfer techniques, preparation of sterile culture media, sterilization of glassware, and isolation of pure cultures through streaking.
2. Evaluate microbial enzymatic activity.
3. Assess the potency of antibiotics and perform sterility testing of pharmaceuticals.
4. Observe microbial cultures microscopically using various staining techniques and determine motility through the hanging drop method.
5. Study and identify different types of contaminated cultures during the course.

Dear sir,

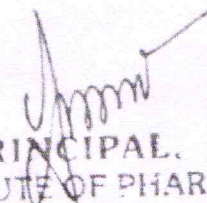

Request for Permission to Conduct an Industrial Visit

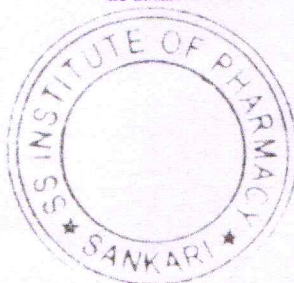

Following our recent discussion, I would like to formally request permission for our B.Pharm Final Year (60) students to visit your organization Planned on (03/02/2025). This visit is integral to their curriculum, as it will enhance their understanding of formulation and research concepts. The visiting team will be accompanied by faculty members, who will oversee the visit and seek valuable insights from your skilled and experienced staff. We kindly request your approval for this visit

Thank you for considering our request. We look forward to your positive response.

FIELD VISIT REPORT

60 students of 2021-2022 Batch B.Pharm and 4 faculties had visited the unit. The faculties accompanied were Mr.S.Prakash, Mrs.M.Praveenkumar, Mrs.P.Nandhitha, Mrs. K.Sowndarya.

Goodman Pharmaceuticals Pvt. Ltd. was established in 2003 and is located in Plot No.B3 To B8 Pipdic electronic park. Thirubhuvanai. Puducherry-605107. It is involved in manufacturing of tablets, capsules and syrups.

The industrial visit was really helpful to understand the proper manufacturing processes. It helped understanding each and every steps involved in these processes in detail. Students were able to relate to the practical aspects of the equipments and the processes studied in theory classes.

Quality control department which was highly equipped with various analytical and quality control equipments like disintegration apparatus, dissolution apparatus, refrigerator, electronic water bath. The department had areas for reserve sample room and the instrumentation room. The instrumentation room had the HPLC, UV and FT-IR. Some of the other equipments were bursting apparatus, electronic balance, water bath, Karl Fisher titration and drying room.

The head of the department of the manufacturing area was there to guide us and explain us in details regarding different steps of manufacturing. He thoroughly explained each and every processes and working of various equipments. A separate area for storage and verification of the packing materials had been allotted. The quality control department then prepares the hatch manufacturing record according to which the process of manufacturing is undertaken. The manufacturing area included areas for granulation, coating etc.

Ref-B.Pharm/HFT/2024-25

Date: 08/01/2025

To

The chairman / managing director,
Deepam Hospital,
No.327 Muthurangam Road,
Tambaram.

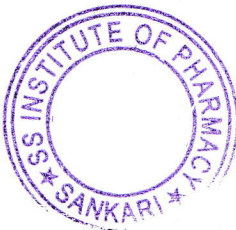

Respected sir,

Sub: Requisition letter to permit our B.Pharmacy students to get clinical research training on Health Care Facility at your esteemed Hospital - Reg.

I am writing to formally request your esteemed hospital's cooperation in allowing our third-year B.Pharmacy students to undertake clinical research training at your facility. We propose a training period of 15 days, during which the students will be divided into various batches. Each batch will rotate through different departments within your hospital according to a prearranged schedule. This field experience is essential for our student's professional growth, providing them with valuable insights and practical skills in a real-world healthcare environment. We assure you that the students will respect the hospital's operations and will strive to integrate seamlessly without disrupting the day-to-day activities.

Thanking you,

Yours truly

Dear All,

We are pleased to inform you that the Department of Chemistry will be hosting a Webinar titled **"Homeopathy vs Allopathy: A Pharmacist's Perspective."** on **18/02/2025** from **11:00am to 01:00pm** in **SSIP Seminar Hall**.

The workshop will be presented **Mrs.V.Deepabharathi & Mr.S.Prakash**, an esteemed expert in the field of pharmaceutical chemistry. This event aims to explore the Homeopathy vs Allopathy: A Pharmacist's Perspective, including:

- Difference Between Homeopathy vs Allopathy.
- Pharmacological Mechanism.
- Safety and Side Effects.

The workshop is designed to enhance the knowledge and practical understanding of our students, providing them with valuable insights into cutting-edge technologies that are shaping the future of pharmaceutical sciences.

All students and faculty members are encouraged to attend this workshop to gain knowledge and engage in discussions on this important topic.

EVENT REPORT

DATE :23/02/2025

Subject:

Post Event Report on **“Homeopathy vs Allopathy: A Pharmacist’s Perspective”**

Respected sir,

I am pleased to inform you that the Webinar on **“Homeopathy vs Allopathy: A Pharmacist’s Perspective”** conducted on **18/02/2025**, was a resounding success. The event witnessed enthusiastic participation from both students and faculty members.

We had the privilege of hosting two eminent speakers from the industry and academia who shared their invaluable insights into the application of **“Homeopathy vs Allopathy: A Pharmacist’s Perspective”**. Their presentations were well-received, and the interactive sessions provided participants with an opportunity to engage in meaningful discussions.

Feedback from attendees has been overwhelmingly positive, with many expressing their appreciation for the knowledge gained through the workshop. This event has undoubtedly enriched the academic environment of our department and has inspired students to explore new avenues in pharmaceutical technology.

I would like to extend my gratitude for your support in making this workshop possible. We look forward to organizing more such events in the future to continue enhancing the learning experience for our students.

EVENT REPORT

DATE :14/01/2025

Subject:

Post Event Report on the workshop **“About the challenges and opportunities in ensuring the safety and efficacy of medications”**

Respected sir,

I am pleased to inform you that the workshop on **“About the challenges and opportunities in ensuring the safety and efficacy of medications”** conducted on **03/01/2025**, was a resounding success. The event witnessed enthusiastic participation from both students and faculty members.

We had the privilege of hosting two eminent speakers from the industry and academia who shared their invaluable insights into the application of **“About the challenges and opportunities in ensuring the safety and efficacy of medications”**. Their presentations were well-received, and the interactive sessions provided participants with an opportunity to engage in meaningful discussions.

Feedback from attendees has been overwhelmingly positive, with many expressing their appreciation for the knowledge gained through the workshop. This event has undoubtedly enriched the academic environment of our department and has inspired students to explore new avenues in pharmaceutical technology.

I would like to extend my gratitude for your support in making this workshop possible. We look forward to organizing more such events in the future to continue enhancing the learning experience for our students.

Dear All,

We are pleased to inform you that the Department of Chemistry will be hosting a Workshop titled "Eco Friendly Project Building" on 08/10/2024 from 11:00am to 01:00pm in SSIP Seminar Hall.

The workshop will be presented by **Dr.C.Jothimanivannan & Mr.S.Pravin kumar**, an esteemed expert in the field of pharmaceutical chemistry. This event aims to explore the Eco friendly project Building, including:

- Biodegradable Medicine Packaging.
- Herbal & Natural Remedies.
- Sustainable Antibiotic Production.

The workshop is designed to enhance the knowledge and practical understanding of our students, providing them with valuable insights into cutting-edge technologies that are shaping the future of pharmaceutical sciences.

All students and faculty members are encouraged to attend this workshop to gain knowledge and engage in discussions on this important topic.

About the Institution

Shree Sathyam Educational Institution was established in 2011 by Dr.V. Sujatha with the aim of providing quality education in all fields. The SS Institute of Pharmacy was established in 2018 with a commitment to continuous quality improvement and the cultivation of lifelong learners who can meet the evolving needs and challenges of the pharmacy profession.

Courses Offered:

B.Pharm - 4 years D.Pharm - 2 years
B.Pharm (L.E) - 3 years

CALL FOR PRESENTATION

Research, Review and unpublished papers are invited for e-poster presentations. Soft copy of abstract (not more than 250 words) can be submitted to eposterpresentation@ssip.edu.in on or before 18.08.2024. Accepted papers will be acknowledged by 20.08.2024.

Best e-poster presentations will be awarded with the attractive prizes

First Prize - Rs.5000

Second Prize - Rs.2500

Third Prize - Rs.1000

Date : 23.08.2024

Venue : Seminar Hall, SSIP.

Certificate of Participation will be provided to all individuals who have registered.

About the Department

Pharmaceutics Department pioneers cutting-edge advancements in drug formulation and delivery systems. Pharmaceutics Department invites you to explore innovative research and excellence in pharmaceutical technology.

Our state-of-the-art laboratories are equipped with the latest technology and modern tools, providing students with the best practical education and research opportunities. Designed to foster innovation and excellence, our labs offer an exceptional environment for hands-on learning and experimentation.

About the Seminar

An integral aspect of creating an ideal research environment involves sharing ideals and fostering learning in research. The seminar aims to raise awareness among students, staff and research scholars about the significance of drug design and development methods to expedite the research process and provide precise, voluminous data.

EVENT REPORT

DATE :12/07/2024

Subject:

Post Event Report on **“Clinical trials based on pharmaceutical medicines”**

Respected sir,

I am pleased to inform you that the workshop on **“Clinical trials based on pharmaceutical medicines”** conducted on **10/07/2024**, was a resounding success. The event witnessed enthusiastic participation from both students and faculty members.

We had the privilege of hosting two eminent speakers from the industry and academia who shared their invaluable insights into the application of **“Clinical trials based on pharmaceutical medicines”**. Their presentations were well-received, and the interactive sessions provided participants with an opportunity to engage in meaningful discussions.

Feedback from attendees has been overwhelmingly positive, with many expressing their appreciation for the knowledge gained through the workshop. This event has undoubtedly enriched the academic environment of our department and has inspired students to explore new avenues in pharmaceutical medicines.

I would like to extend my gratitude for your support in making this workshop possible. We look forward to organizing more such events in the future to continue enhancing the learning experience for our students.

Sankari.

Sub; Seeking permission to attend
a National seminar at the Dhanalakshmi
Saivasan university, perambalur
- Reg [22/02/2025].

Respected Sir / Mam;

As, we are the students of our
pharmacy college (SSIP). We are willing to
attend one day National seminar perambalur
on the topic of "pioneering pharmacy's
future; Fostering Industry - Academia
collaboration through Technological Innovations
for Sustainable Health care". It is
beneficiary for us. Hence we kindly
Request you To give us permission for
attending the seminar by providing a Bus.

Thank you.

Title: Pioneering Pharmacists: Fostering Industry-Academia Collaboration through Technological Innovation for Sustainable Healthcare

Introduction

The role of pharmacists has evolved beyond dispensing medicines to becoming key contributors in research, innovation, and healthcare sustainability. Technological innovations serve as the bridge in this partnership, enabling groundbreaking advancements for a sustainable healthcare future.

1. The Changing Role of Pharmacists

Pharmacists are increasingly involved in clinical research, regulatory affairs, and drug development.

They serve as liaisons between scientific research and practical application in healthcare..

2. Importance of Industry-Academia Collaboration

Knowledge Exchange: Academia provides theoretical frameworks, while the industry offers practical insights.

Skill Development: Joint training programs and internships prepare pharmacy students for real-world challenges.

Research and Innovation: Collaborative projects drive the development of new drug delivery systems, AI-based diagnostics, and personalized medicine.

3. Technological Innovations Driving Collaboration

Artificial Intelligence and Machine Learning: Used in drug discovery, patient profiling, and data analysis.

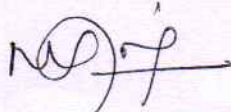

Blockchain: Enhances the transparency and security of pharmaceutical supply chains.

3D Printing: Enables personalized drug dosing and on-demand medication production.

Cloud-based Research Platforms: Facilitate real-time data sharing and collaborative drug development projects.

Conclusion

Pioneering pharmacists, through strong academia-industry partnerships and the use of cutting-edge technologies, are shaping a future where healthcare is more sustainable, efficient, and accessible. Fostering such collaborations is not just an opportunity but a necessity for modern pharmaceutical science and global health.

CONTINUING EDUCATION PROGRAMME ACCREDITATION CERTIFICATE

This Certificate is awarded to Dr/Mr/Ms. Ajay . S
for attending the One day International Seminar on "Artificial Intelligence - Drug Discovery and New Drug Delivery
Innovations*in Pharmaceutical Sciences [AIDD-NDDIPS]" held on 14th - Feb, 2025 - Friday organized by the
Department of Pharmaceutics of K.S.Rangasamy College of Pharmacy, is accredited by The Tamil Nadu Dr.M.G.R.
Medical University with Credit Points 10 under the Category II.

Artificial Intelligence in Drug Discovery and New Drug Delivery Innovations in Pharmaceutical Sciences

1. Introduction

The integration of Artificial Intelligence (AI) in pharmaceutical sciences is revolutionizing how drugs are discovered and delivered. AI enables faster, more accurate identification of drug candidates and the design of innovative drug delivery systems, significantly reducing time and cost in the drug development process.

2. AI in Drug Discovery

2.1 Target Identification and Validation

AI algorithms analyze biological data to identify and validate potential drug targets. Machine learning (ML) models can predict protein structures, disease-related genes, and biomolecular interactions.

2.2 Lead Compound Identification

AI is used to screen vast chemical libraries quickly and efficiently, helping to identify promising lead compounds with desirable properties.

2.3 Drug-Drug Interaction and Toxicity Prediction

Predictive models assess potential drug-drug interactions and toxicity profiles before clinical trials, improving safety.

2.4 Drug Repurposing

AI helps in identifying new uses for existing drugs, reducing development costs and timelines.

2.5 Key Tools and Platforms

Deep Mind's Alpha Fold for protein structure prediction Atom wise and Benevolent AI for compound screening. IBM Watson for drug data analysis
